## DETAILED ACTION

### *Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-5, 9-11, 20, and 21, are drawn to setting the direction of growing personnel, classified in class 705, subclass 1.
  - II. Claims 6, 7 and 12-17, are drawn to the selection of personnel supplemented to one organization from another organization, classified in class 705, subclass 1.
  - III. Claim 8, 18, 19, and 22, are drawn to evaluating business and personnel achievement, classified in class 705, subclass 1.
2. The inventions are distinct, each from the other because of the following reasons:
3. Inventions I, II and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as setting the direction of growing personnel. In the instant case, invention II has separate utility such as comparing separate organizations, and supplementing one from the other. In the instant case, invention I has separate utility such as accumulating the capability amount for both personnel and the entire business, and creating an achievement assessment for one or both. See MPEP § 806.05(d).
4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Art Unit: 3629

5. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that claims are generic is considered nonresponsive unless accompanied by an election.
6. Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

#### *Conclusion*

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jonathan Ouellette whose telephone number is (703) 605-0662. The examiner can normally be reached on Monday through Thursday, 8am - 5:00pm.
